POOL SWIMMERS WILL TRY RIVER

Women's Classes at Y. M. C.
A. Plan Outing to Close Season.

To celebrate the closing of the ladies' swimming classes at the Y. M. C. A. the instructors and those in charge of the work are planning a day's outing for all the swimmers. The various classes will leave the city early in the morning and go to some up river camp where the day can be spent swimming in the river where all will have plenty of water in which to frolic and try all of the fancy swimming stunts learned during the season.

The instructors, Bliskey, Worthington and Reed, have done well during this season and practically all of the class members are now most excellent swimmers while a few have become experts.

The details of the outing are to be worked out tomorrow when the classes meet for the last time at the Y. M. C. A. Committees will be appointed to look after the various details, such as plenty of things for hungry swimmers to eat, chaperones and invited guests who do not belong to the classes. For this reason Director Bliskey has urged all of the class members to attend the closing classes tomorrow.

SPORT NOTES

Manager Tinker fined Helme Zimmerman \$50 for trying to go from first to third on a sacrifice bunt. That's what a guy gets for being overzealous.

When Coveleskie pitches for them the Tigers usually pole out a victory.

That American League pennant race looks more and more like a plate of beans every day.

Alexander's pennant band appears to be playing rag-time music.

Frank Moran isn't the speediest boxfighter in the world but he's got something on Dutch Schaefer's phenom who could run all day on a thin dime.

Fans in Brooklyn aren't a bit excited over the prospects of having a pennant winner. They're just as reserved as a flock of lions when the red meat is being served.

See where Tommy Ryan, former middle champ, is doing well with his boxing club in Syracuse. He's making money glove over glove.

Labor day has its advantages. For instance it gives some of the star morning infielders a chance to butt into the fracas.

We have it straight from Frank Gotch that speed, endurance and skill are essential to a wrestler who is successful. Naturally the size of the purse has a thing to do with it.

FOREBODINGS

The summer days we cursed so strong
Are going—gone almost!
It seems we ought to sing a song,
Or give those days a toast.
I'm almost sorry now I said
I wished that winter'd come;
The leaves will soon be brown and red,
We'll miss the skeeter's hum.

I'm just a little sad, you know,
Since fall is almost here;
I seem to see the winter's snow,
And landscapes dull and drear;
I sort of hear the wailing freeze,
The coal man's footfall, too;
He's come to tell us we must freeze,
For last year's bill is due!

COLORADO'S ALTITUDE DOESN'T WORRY WHITE CLIMBS TELEGRAPH POLES WHILE TRAINING!

HERE'S CHARLIE WHITE, SHINNING UP POLE TO BREAK THE MONOTONY OF 10-MILE HIKE OVER MOUNTAINS.

(By HAROLD JOHNSON.)

Colorado's justly celebrated altitude isn't worrying Charlie White in training for his 20-round battle with Freddie Welsh for the world's lightweight championship at Colorado Springs, Labor day.

Pipe this picture for the proof. The Chicago knockout is seen ascending to the heights of a telegraph pole which chanced to catch his eye during a hike over the mountain roads near his camp. Climbing has been a part of White's daily work ever since he donned fighting togs and a little thing like altitude is the least of his worries.

Both principals in the big battle played safe by arriving upon the scene several days in advance of their titular scrap and both are fast becoming acclimated. White, having fought twice in Denver, says he never experienced any ill effects from the atmosphere. One of his engagements went 19 rounds before White's deadly left silenced Stanley Yoakum.

In addition to climbing telegraph poles while on the road White is an enthusiastic bicyclist and occasionally takes a load off his feet to clamber into the saddle of a two-wheeler.

One Minute Talks with Ballplayers

LARRY CHENEY, BROOKLYN NATIONALS:

"I pitched my first curve ball in the National league during our last trip to Pittsburgh. I have never had a curve, and every player and manager in the majors knows it."

"I have always depended on my fast one—my spitter—and using my head, but I have lately been working with a curve and think I will fool a lot of the wise boys."

"I took a chance in the fifth inning against Pittsburgh when Bob Harmon was up with two out and we were four runs to the good. I offered Bob as nice a curve as you ever saw. He came near making a hit off me but McCarty made a great play and retired him. I'll try the experiment again."

"RED" FABER, CHICAGO WHITE SOX:

"Baseball would have been played generally in France this summer had it not been for the war. When the White Sox and Giants toured the world we found the citizens of Paris quite enthusiastic over the game."

"I wouldn't be surprised to see France adopt baseball as the national game at the close of the hostilities. Look at the manner in which they took to boxing and the short time in which they produced good fighters of their own."

"Canadian soldiers have been playing baseball during their spare time at the front and in several games they

MAY BUILD MORE TRACKS.

ELKINS, W. Va., Aug. 30.—It stated that a deal has been close whereby the Western Maryland Railway takes over 25 acres of land adjacent to the new shops at Maryland Junction, having purchased the ground from John Miller, the ground to be used for additional tracks on the main line and for establishing a grade which will eliminate "helpers" leaving the Maryland division.

"Dear sir," wrote the anxious mother, "I am afraid Johnny is not trying enough."

"Dear madam," replied the harassed teacher, "I assure you that Johnny is quite trying enough. He is the most trying in the class."

By Midnight

Tuesday, August 15th

Up to midnight August 15, a period of 7½ months, we sold and delivered more United States Automobile Tires than we sold during the entire twelve months of 1915—last year.

By August 16, we had passed, by several thousand casings, the sales total for 1915,—itself a year of steady sales increases.

And day by day these phenomenal 1916 increases are heaping up.

Besides—there were still left of this year 115 selling days—4½ months.

This almost unbelievable feat of equalling, in 7½ months, the sales record of last year, proves the unequalled merit and actual economy of
